

**Due to the current situation, you can currently only visit our museum under the following conditions:**

- It's best to come alone or with your family.
- Please wear mouth and nose protection during the museum visit.
- Please keep the usual minimum distance of 1.5 – 2 meters from other people while visiting the museum.
- To ensure comprehensive hygiene, we ask you to wash your hands regularly and to sneeze and cough properly.
- Group tours, workshops and other events take place under the applicable hygiene and protective measures, the group size is limited. You can find more information at the respective events.
- The guidelines for visiting the museum have been developed together with the health department and the city museums and serve both your protection and that of our employees.

We are looking forward to your visit!
